

**ADDENDUM 004
REQUEST FOR PROPOSAL
ITS Maintenance
RFP NUMBER: D607-083-RW**

Bidders shall acknowledge receipt of Addendum 00 (FOUR) by signing and including it with the original response. The due date for receipt of proposal remains unchanged by this Addendum. Accordingly, the following clarifications, questions and answers are believed to be of general interest to all potential Bidders. All other terms and conditions remain unchanged and in full force.

Name and Title of Signer (Print or type)	Name and Title of Department Authority Terri Mount General Services Specialist
Bidder Signature <hr/>	Department of Transportation Terri Mount <hr/>
(Signature of person authorized to sign)	(Authorizing Signature)
Date Signed:	Date Signed: 6/14/07

Question 1.: On the bid items, 3.11a to 3.11f, power cable, is this for 1 Conductor or for 3 Conductors? Each cable is paid per linear foot of conductor. In the case of power cable, there will be 3-1 conductor cable.

Response 1: Intent was per conductor.

Question 2: On table 2 Laor Categories and Rates, can you clarify the initial cost column?

Response2: This cost shall be provided by the contractor and not MoDOT.

Question 3: There is no place to charge for equipment that will be used on a hourly basis for extra work. Do you want to add a sheet for hourly equipment?

Response 3: Equipment will be paid for per expense rates given in the Rental Rate Blue Book for Construction Equipment published by Primedia Information, Inc. for the year in which the work is performed.

Question 4: On Table 3 Line item 3.15b - 3.15d, pull boxes, these Items should be figured as a per each item, qty of 1 per incident & Initial Annual Quantity. I think pull box type 2, 3 & 4 quantities were left out by accident. I believe both Max. unit per incident & Initial Annual Quantity for all pull boxes should be "1 Each".

Response 4: Yes. That is correct.

Question 5: The existing material that we will warehouse, is it currently stored at the building off of Barrett Station Road?

Response 5: All existing MoDOT Materials are currently stored either @ 2309 Barrett Station complex or 14301 /s. Outer Forty Rd, TMC Building.
